

Learn **PRANIC HEALING** and **Achieve your Goals**

Introduction

As the World has now become a global village, the Corporate World is facing new challenges. The financial results depend to a large extent on the effective utilization of human resources. However, the human resource at the disposal of the Corporate World is passing through trying times due to stress, strain, fatigue, targets, competition, and many market forces beyond their control.

Pranic Healing provides simple answers to all the difficult questions faced by the Corporate Managers all over.

What is Pranic Healing ?

Pranic Healing is a simple and yet effective Science of **“No Touch Energy Healing”** originated by Grand Master Choa Kok Sui. It is based on the principle that the body is a **“self repairing”** entity and has the ability to heal itself. It is applied on the aura or the energy body referred in Vedanta as the **“Pranamaya Kosha”**.

The energy body surrounds and interpenetrates the visible physical body. It absorbs life energy from the surroundings and distributes it to the muscles, organs, glands, etc. in the physical body. Malfunction in the energy body in the form of energy disruptions leads to illnesses of different kinds. When the energy body is healed, the same positive effect is transferred to the physical body.

You can learn to perform Pranic Healing on yourself and your loved ones in powerful, result-oriented workshops. Pranic Healing can also be used for healing oneself of any illnesses or for the maintenance of good health. Pranic Healing combined with meditation techniques make a person less stressful and enables the practitioner find inner peace – essential for being successful in the present environment.
